MAKING CONCRETE BEAUTIFUL SINCE 1998

SPECIALIZING IN:

DRIVEWAYS	COURTYARDS	INTERIORS	WALKWAYS
GARAGES	POOL DECKS	PATIOS	BALCONIES

TEN REASONS

TO CHOOSE CONCRETE TEXTURING

1 WE WORK WITH WHAT YOU HAVE. Most companies operate on an all or nothing principle. They either remove everything or they don't do the job. In some cases, this is required to provide a long lasting and durable service. However, in most situations only part of the concrete, or part of the coating, needs to be removed. Concrete Texturing is one of those rare companies that has the experience to evaluate the situation and only remove what is necessary.

2 CONCRETE EVALUATION IS THE KEY TO PRODUCT DURABILITY. Concrete Texturing believes one of the most significant aspects and one of the most overlooked parts of concrete resurfacing is evaluating the condition of the existing concrete surface. Most resurfacing jobs are done over worn concrete and the quality of the existing concrete has an impact on product selection and the durability of the resurfacing product. Before making a product selection you must know the condition of your concrete and what to expect. For this reason, Tim, the owner of Concrete Texturing, continues to go out daily and evaluate most potential jobs.

3 CUSTOM DESIGNS BASED ON YOUR NEEDS AND CIRCUMSTANCES. At Concrete Texturing, our job is to help you discover what you really want and design a coating system based on that information. Through a collaborative effort, we will help you discover your criteria for purchasing a decorative surface and provide the best outcome based on your circumstances and existing concrete conditions.

4 INNOVATION WITH TWENTY-FIVE YEARS EXPERIENCE. Our experience and innovation allow us to blend old surfaces with new and utilize surfaces that others would like to remove. For example, our hand textured flagstone pattern allows us to work with heavily cracked surfaces while other companies want to replace all the concrete.

5 FULL RANGE OF PRODUCTS, DESIGNS, SOLUTIONS, AND PRICE POINTS. Concrete Texturing will offer you more ideas, designs, techniques, texture, sealant, and color options on more surface areas than any other company out there. Concrete Texturing pours grey and stamped concrete, plus coats or texture surfaces for a broad range of industries: pool decking, rock features, driveways, walkways, entryways, patios, garage floors, showrooms, warehouses, vertical walls, kitchens, offices, retail, bakeries, hospitals, restaurants, mechanicals shops, veterinarian clinics, dental offices, airplane hangars, schools, and restrooms.

6 CUSTOM COLORING Selected colors often look different when they are applied to a textured surface. That is why Concrete Texturing will do a color sample for the customer on the selected surface. Often adjustments are made at the job site with the color originally selected by the client leading to more satisfactory results on the final project.

7 A WARRANTY THAT COVERS LABOR AND MATERIAL Our warranty covers both labor and material and is backed by a family-owned company that has been in business since 1998. Most warranties just cover the material and in many cases are only covered by the manufacturer.

8 EXPERIENCED INSTALLERS Our installers are seasoned, qualified professionals with years of hands-on real-world experience. Our employees are polite, courteous, and informed about our products and the various installation process. We understand that ongoing communication with our clients is essential to their satisfaction

9 OUR COMMITMENT TO OUR CLIENTES GOES BEYOND THE INITIAL INSTALLATION Concrete Texturing offers ongoing maintenance, cleaning and problem-solving solutions for any concrete or coatings surface you may have. We like to help our customers finish their home projects. If there is something that is outside our wheelhouse, we are happy to refer quality companies you can trust to help with your overall project.

10 PROVIDES MUCH MORE THAN A PRODUCT When evaluating a product please keep in mind you are buying a service from a company. How does that company perform when they are called to service their product? What are the values of that company? Do they treat their clients fairly? Concrete Texturing truly believes that in most cases any client who wants a coating on their existing surface is going to be happier and better served by selecting Concrete Texturing. There are other companies that offer longer warranties, lower prices and tout their product as the best option. However, from product selection to scheduling and installation to surface maintenance Concrete Texturing outperforms its competition. We have many clients that have been working with us since we first started in Last Vegas. This doesn't happen unless you pick the right product for the customers circumstance and deliver what you promised.

MEET the OWNER

Tim is married to his college sweetheart and business partner, Danette Matthews. Together they have 3 children and 8 grandchildren. From an early age Tim played competitive sports excelling in basketball and football. While playing sports Tim developed the mind-set that every day is a day to improve, and this is a core element he uses in the management of Concrete Texturing. "Throughout every year I constantly evaluate Concrete Texturing and set goals to improve in at least one area at a time. I don't ever want to become static with my personal growth or the development of my company. In more years than not, those improvements have made a significant impact on improving our service to our clients and our client relationships." Tim graduated with his bachelor's degree in Business Administration at the University of Arizona in 1988. Tim later went on to obtain his master's degree in Organizational Management from the University of Phoenix in 1993. He is also active in his community and church.
